EDUCATION

University of Massachusetts Amherst

Amherst, MA

Bachelor of Science in Computer Science, Minor in Business; GPA: 3.95/4.00 Expected Graduation: May 2027

Relevant Coursework: Object-Oriented Programming, Data Structures, Algorithms, Data Management/Applications, Machine Learning, Linear Algebra, Software Engineering, Discrete Math, Scalable Web Systems, Computer Systems

TECHNICAL SKILLS

Languages: Python, HTML, CSS, C, SQL, TypeScript, JavaScript, Java, Rust

Technologies: Django, Angular, Nodejs, AWS, Git, Docker, PostgreSQL, Flask, Tensorflow, MongoDB, Azure

Activities: Competitive Swimming (3x College Club Swim National Qualifier), Bouldering, Skiing/Snowboarding

EXPERIENCE

IBM Instana

San Jose, CA

Incoming Software Developer Intern

May 2026 – Aug 2026

North Atlantic Industries

Bohemia, NY

Software Engineer Intern

May 2025 – Aug 2025

- Integrated Claude Code agents with VectorRAG search and document retrieval tools by developing an Model Context Protocol (MCP) server with FastMCP, enabling agent-level understanding of company systems.
- Built and deployed an internal chatbot powered by a Microsoft GraphRAG knowledge graph of 10,000+ SQL inventory entries, enabling employees to efficiently search and understand part relationships.
- Boosted bare-metal runtime by 12% and minimized memory vulnerabilities by translating C code to Rust with zero cost abstractions, while designing modular architecture and C interoperability to enable incremental adoption.

UMass Amherst Learning Resource Center(LRC)

Amherst, MA

Tech Lead

Nov 2024 - Present

- Supported 500+ daily active users by maintaining the public LRC website and a Django-based internal scheduling and payroll app hosted on AWS EC2 and RDS, modernizing workflow and reduce administrative processing time.
- Resolved performance bottlenecks and reduced page load times by 45% by coordinating database migration from SQLite to AWS RDS PostgreSQL, parallelizing data operations while avoiding race conditions.
- Facilitated student access to 500+ research opportunities by developing a database search engine and user interface for the Office of Undergraduate Research and Studies (OURS).
- Coordinate the needs of 4 departments heads, providing insight and presenting progress with weekly meetings.

PROJECTS

Google Suite Assistant | Python

Oct 2025 – Apr 2026

- Engineered a multi-agent autonomous system using Microsoft AutoGen framework to orchestrate Google Workspace productivity workflows, integrating Google Cloud APIs to automate routine tasks and enhance user productivity.
- Reduced LLM API costs by 30% by optimizing tool schemas and utilizing output-parsing techniques, reducing token consumption.
- Developed a secure Model Context Protocol (MCP) server architecture with OAuth2 authentication and stateless session management, enabling concurrent multi-user access while maintaining data isolation.
- Built a Streamlit-based frontend, featuring a homepage recap of recent emails and tasks, a real-time display of agent-to-agent reasoning and tool usage, and an interactive chat interface for user-agent interaction.

DuckPond | Python, Next.js, MongoDB

Feb 2025 – May 2025

- Centralized 3,000+ active conversations into a unified notification platform for Duck Creek Technologies, leveraging Pydantic data validation and MongoDB document stores to integrate messaging modules for various departments.
- Integrated an AI-powered assistant trained on company data schemas to auto-generate formatting-compliant, recipient-tailored messages, accelerating message drafting for policy writers and claims adjusters.

LEADERSHIP

Taiwanese and Chinese Students' Association

Amherst, MA

President

Sep 2023 - Present

- Lead an 18-member board overseeing budgeting, sponsorships, and programming for large-scale cultural events.
- Oversaw event planning, sponsorship procurement, and food catering for events exceeding 500 attendees.
- Negotiated, drafted, and managed contracts totaling over \$10,000 with guest performers and vendors, ensuring legal compliance with university policies, smooth day-of execution, and strict adherence to event budgets.
